EDUCATION

Faculty of Engineering of the University of Porto (FEUP) Sep 2024 – Present
BSc in Informatics and Computing Engineering (LEIC) Porto, Portugal

- **Admission Grade:** 18.0/20 | **Admission Exams:** Mathematics A: 19.9/20 | Physics & Chemistry A: 16.2/20
- **Current GPA:** 16.1/20
- **ArmisLab FEUP:** Member of the Data Analytics team.

University of Applied Sciences in Nysa (PANS w Nysie) Oct 2026
Erasmus+ Blended Intensive Programme (BIP) Nysa, Poland

- **Course:** *"From Drone Data to Digital Twins"* | **Grade: A**
- Completed intensive training on UAV photogrammetry, point cloud generation, geospatial analysis, and digital twin modeling.

EXPERIENCE

Lembra (lembra.pt) 2026 – Present
Founder & Full-Stack Developer Portugal

- Founded and engineered an event photo-sharing web application actively serving paying clients, enabling guests to capture candid moments via QR codes with no app install or account creation.
- Managed the full product lifecycle, web development, UI/UX architecture, cloud deployment, and client acquisition.

Electronics Repair Technician Assistant Jan 2026 – Present
Hardware Diagnostics & Technical Support Trofa, Portugal

- Diagnose, troubleshoot, and repair electronic equipment, computer hardware, and mobile devices, identifying hardware failure points to deliver rapid turnaround solutions.

Local Accommodation Manager (Short-Term Rental) Oct 2025 – Jun 2026
Business Operations & Property Management Porto, Portugal

- Managed end-to-end business operations with complete owner-level autonomy, overseeing booking channels, customer invoicing, billing, and facility maintenance.
- Delivered high-standard guest hospitality with professional English communication, coordinating check-in logistics and real-time problem-solving to secure outstanding ratings.

SELECTED PROJECTS

RISC-V Processor Core | *SystemVerilog, Computer Architecture* | [GitHub]

LCode Text Editor | *C, Low-Level Systems, drivers, Minix, LCOM course* | [GitHub]

SKILLS & INTERESTS

Systems & Hardware Description: C, C++, SystemVerilog, RISC-V / Assembly, Java

Architecture & Systems Domains: Computer Architecture, Operating Systems Internals (Minix/Linux), Device Drivers, Computer Networks, Hardware Diagnostics

Languages: Portuguese (Native), English (Professional Working Proficiency)

Interests: Chip Design & Semiconductor Architecture (**RISC-V Core Development**), Drone Piloting

Leadership: Student Union Treasurer (2022–2024), Competitive Football (Player from age 8 to 2026; long-time Team Captain developing squad leadership and discipline)
